Dear Chapter Leaders,

We hope this email finds you in good health.

The third edition of CodeChef's Indian Programming Camp, IPC 2020 is back for all the programmers. The IPC 2020 is a three-day programming workshop with **Live classes, topic-wise problem-solving sessions, programming contests**, and a lot more - all conducted by some of the country's finest programmers. That's not all; all participants walk out with a **CodeChef issued certificate** at the end of the workshop.

This is the best opportunity to level up your competitive programming game and it caters to all - Beginner, Intermediate and Advanced programmers. Being the CodeChef Chapter Leader of your college, we want you to **make all the students in your college register for it**. This will help boost the community in your college!

The workshop is open to all with **no registration fees**. To know more about this three-day programming extravaganza, [click here](#).

- **Camp date:** 20th November - 22nd November 2020
- **Last date of registration:** 19th November 2020 (tomorrow).

Share the following message amongst your Chapter members and in your college to get more students to your campus:

"CodeChef's Indian Programming Camp is here for the third season, and it is better than ever this time because it will cater to programmers of all levels. Yep, whether you are a beginner, intermediate, or an advanced programmer there is a separate track for you.. The 3-day deal will consist of Live classes, problem-solving sessions, and even contests. As the cherry on top, all participants get to take home a certificate. So hurry up, the last date for registration is the 19th of November."

Register here: <https://www.codechef.com/ipc/camp/2020#register>

Looking forward to participation in high volume from your college and growing the competitive programming community with this workshop. You can track the registrations from your college [here](#).
