Certificate of Completion

sashank adapa

has successfully achieved student level credential for completing the Network Technician Career Path.

The student was able to proficiently:

- Explain the importance of standards and protocols in network communications.
- Explain how communication occurs on Ethernet networks.
- Explain the features of IPv4 and IPv6 addresses.
- Configure an integrated wireless router and wireless client to connect securely to the internet.
- Explain how Ethernet operates in a switched network.
- Compare the operations of transport layer protocols in supporting end-to-end communication.
- Explain how DNS and DHCP services operate and diagnose basic network connectivity issues.
- Explain how routers use network layer protocols and services to enable end-to-end connectivity.
- Demonstrate effective troubleshooting methodologies and help desk best practices.
- Configure secure user access on a network.

Neelima Adapaka

has successfully completed the online, non-credit Professional
Certificate

Google UX Design

Those who earn the Google UX Design Professional Certificate have
completed seven courses, developed by Google, that include hands-
on, practice-based assessments and are designed to prepare them for
introductory-level roles in UX design. They can complete the design
process from beginning to end: empathizing with users, defining their
pain points, coming up with ideas for design solutions, creating
wireframes and prototypes, and testing designs to get feedback.

Statement of Achievement

surya vardhan reddy Gosala

has successfully achieved student level credential for completing the
JavaScript Essentials 1 course, provided by Cisco Networking Academy
in collaboration with OpenEDG JavaScript Institute.

The graduate is able to proficiently:

- Understand the syntax of the core JavaScript language that allows for working with variables, operators, flow control, and functions.
- Understand the basics of the JavaScript data types system, distinguishing between primitive and complex types.
- Think algorithmically and can analyze a problem using a programmatic conceptual apparatus.
- Choose a data type adequate to the problem being solved and use suitable flow control means.
- Design, develop, and improve very simple JavaScript programs.
- Interpret and handle basic exceptions related to errors in program execution.
- Understand a programmer's work in the software development process and the role of fundamental development tools.
- Understand how a program is interpreted and executed in an actual computer environment, local or remote.

Foundations of User
Experience (UX) Design

Start the UX Design Process:
Empathize, Define, and
Ideate

Build Wireframes and Low-
Fidelity Prototypes

Conduct UX Research and
Test Early Concepts

Create High-Fidelity Designs
and Prototypes in Figma

Responsive Web Design in
Adobe XD

Design a User Experience for
Social Good & Prepare for
Jobs

Jul 29, 2023

Anjali Panda

has successfully completed the online, non-credit Professional
Certificate

Google UX Design

Those who earn the Google UX Design Professional Certificate have
completed seven courses, developed by Google, that include hands-
on, practice-based assessments and are designed to prepare them for
introductory-level roles in UX design. They can complete the design
process from beginning to end: empathizing with users, defining their
pain points, coming up with ideas for design solutions, creating
wireframes and prototypes, and testing designs to get feedback.

INTERNSHIP CERTIFICATE

This is to certify that **Mr. Latchireddi Sai Charan** of Anil Neerukonda Institute of Technology & Sciences **(ANITS)** pursuing B.Tech in Computer Science Engineering has successfully completed his internship with Aspire Info Labs Global Private Limited from **25th May 2023 to 15th June 2023.**

He interned under the guidance of a Software Development Engineer of Aspire and worked as **UI Development Trainee Intern.**

His notable contributions during the internship:

•Part of User Profile Team, responsible for segregating, enabling users to display their personal and educational details while also empowering them to perform CRUD operations.

•Part of Recommendation System Team, designing and building the system.

•Tech Stacks Used: M.E.R.N (Mongo DB, Express Js, ReactJs, NodeJs) Stack.

During his tenure, he was found to be sincere in his work and has discharged his duties in an efficient manner.

CAL ARTS

Nov 14, 2023

REDDIPALLI GRUHA SATYA SAI VANAJA

has successfully completed the online, non-credit Specialization

UI / UX Design

In this Specialization, learners summarized and demonstrated all stages of the UI/UX development process, and reviewed current best practices in UX design to create effective and compelling screen-based experiences for websites or apps. Learners completed a series of short exercises, both visual and non-visual, to apply acquired knowledge, from organizing and structuring screen-based content, defining goals and strategy, to creating wireframes and visual mockups. Finally, learners produced a mid-level digital prototype with simulated functionality, as well as a comprehensive plan for a complex website.

3 Courses

Supervised Machine Learning: Regression and Classification

Advanced Learning Algorithms

Unsupervised Learning, Recommenders, Reinforcement Learning

Jul 21, 2023

Yadla Harshavardhan Sai

has successfully completed the online, non-credit Specialization

Machine Learning

Congratulations on completing all three courses of the Machine Learning Specialization! You studied modern machine learning concepts, including supervised learning (linear regression, logistic regression, neural networks, decision trees), unsupervised learning (clustering, anomaly detection), recommender systems, and reinforcement learning. You learned some of the best practices for building machine learning models. You've also gained practical skills to apply machine learning techniques to challenging real-world problems. Now #BreakIntoAI and start building your career in machine learning!
